

2022 HACCP REPORT

18TH July 2022

Agrichemical residue analyses

- Our agrichemical residue analyses are performed by Agrifood Technology Pty Ltd, Werribee, Victoria, Australia
- Agrifood Technology is accredited by the National Association of Testing Authorities (NATA) and is ISO:9001 certified.
- Agrifood Technology test for 292 Agrichemicals. The complete list of results is available upon request.
- As per the BarthHaas Quality Control Guarantee for crop 2022 HPA analysed at least 1 sample for every 40 tonnes of hops harvested. All varieties and growing regions were represented in the samples tested.
- For crop 2022 we tested 53 samples.
- For more Information about the Barth–Haas Quality Control Guarantee go to:
<https://www.barthhaas.com/en/hops/hop-varieties-and-products/raw-hops-pellets-and-extract/our-quality/testing-guarantee>

**No agrichemical residues were detected above the “global best practice” MRL’s,
established by the BarthHaas Group in the crop 2022 hop pellet samples.**

Heavy metal analyses

- Our heavy metal analyses are performed by the National Association of Testing Authorities (NATA) accredited laboratory, Analytical Services Tasmania at the University of Tasmania.
- We analyse for Arsenic, Lead, Cadmium, Mercury, Nickel, Copper, Iron, Selenium, Chromium, and Cobalt.
- 14 samples are tested representing each growing region and variety.

2022 crop heavy metal analysis results
