

# HOP NAVIGATOR

Our Hop Flavour Navigator is a useful tool for brewers who are considering our Aussie hops for the first time, or thinking about getting creative with an old favourite.

It's a framework for which flavours will manifest in beer based on how and when our hops are commonly used during our brewing trials and in our customers' beer.

© The Hop Flavour Spectrum is owned by Hop Products Australia. It may not be used or reproduced without full and legible branding.
